Reason for enrolment

Please write in detail your reason for coming to Japan and your plans after graduating from our school. Short responses are generally considered unfavourable

I have always had a keen interest in Japanese media and technology. Since I was a teenager I loved One Piece and Naruto as well as reading and watching videos about Japanese technology. I finally took a trip for a few weeks to Japan a couple of years ago and got to experience some of the technology and culture in Japan.

My biggest issue was the language barrier as very few people were able to speak English. After my return I enrolled in a language course, learning to speak, read and write Japanese so that I could visit again and be able to communicate in Japanese. I saw an advertisement on social media for studying in Japan and decided to apply to your school after checking my options.

I want to come to Japan and study at Shinwa Foreign Language Academy on the 2 year course to better my understanding of Japanese as well as improve my own skills in communication and cultural understanding. After I graduate I am hoping to enter a college to study engineering and perhaps begin a career in Japan.
